-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**Status**

- 1) ☒ Responsive to communication(s) filed on 09 November 2005.
- 2a) ☒ This action is **FINAL**.                      2b) ☐ This action is non-final.

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1,2,6,11,12,13,15-17 are rejected under 35 U.S.C. 102(b) as being anticipated by Dedoes (3,650,331).

Dedoes discloses an apparatus including first and second shafts 94 rotatably coupled to a carrier 96, the shafts being substantially parallel and being spaced apart by a separation distance, with a first set of soil aeration tines 116 attached to the first shaft, each tine in the first set rotating relative to the ground in one of a first set of rotation planes, and a second set of soil aeration tines attached to the second shaft in a second set of rotation planes and able to rotate relative to the ground, and wherein none of the second set of rotating planes overlap any of the first set of rotating planes as viewed from behind as shown in figure 2. Concerning claim 17, member 112 is considered a tine rack.

Claims 1-6,11,13,15-17 are rejected under 35 U.S.C. 102(b) as being anticipated by McGuire (2,111,478).

Art Unit: 3671

McGuire discloses an apparatus including first and second shafts 28 rotatably coupled to a carrier, the shafts being substantially parallel and being spaced apart by a separation distance, with a first set of soil aeration tines 29 attached to the first shaft, each tine in the first set rotating relative to the ground in one of a first set of rotation planes, and a second set of soil aeration tines attached to the second shaft in a second set of rotation planes and able to rotate relative to the ground, and wherein none of the second set of rotating planes overlap any of the first set of rotating planes as viewed from above as shown in figure 2. Concerning claim 3, shaft 26 is considered the support shaft. Concerning claims 6 & 12, the examiner notes that since McGuire clearly shows the tines penetrating deep into the ground (figure 1), the apparatus would leave holes in the ground, inherently meeting the limitation of penetrating and removing a portion of soil from a ground surface. Concerning claim 17, member 112 is considered a tine rack.

### ***Allowable Subject Matter***

Claims 7 & 14 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

### ***Response to Arguments***

Applicant's arguments filed 11/9/05 have been considered but are moot in view of the new ground(s) of rejection.

***Conclusion***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Victor Batson whose telephone number is (571) 272-6987. The examiner can normally be reached on Monday through Thursday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Tom Will can be reached on (571) 272-6998. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
